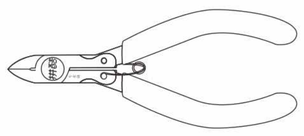
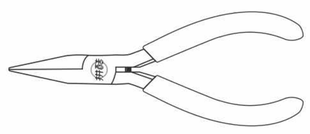
Installation Reminder

⚠ Please handle the metal trim carefully to prevent scratches.

- Prepare tools:



Clipper
Cut the parts off the sheets.

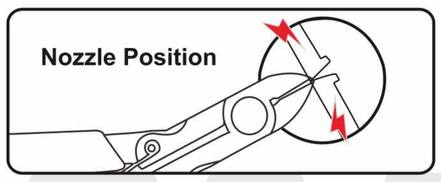


Needle nose pliers
Fold the cutting parts into models.

It is recommended to use piececool authentic assembly tools to build or fix the design. It is tailor made for the metal pieces and user friendly.

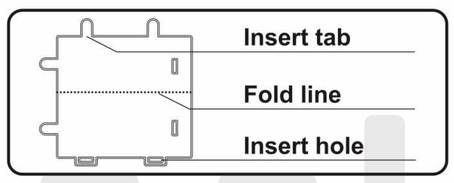
- Installation Method:

a. Remove the parts



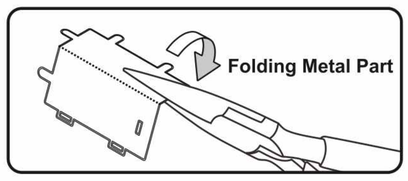
Please use the clipper to cut the nozzle position and remove the parts.

b. Identify the parts



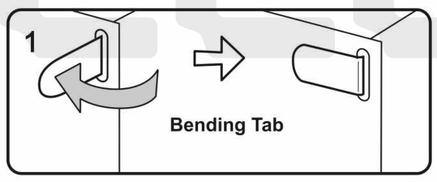
Identify the insert tab, fold line and the insert hole.

c. Folding the parts

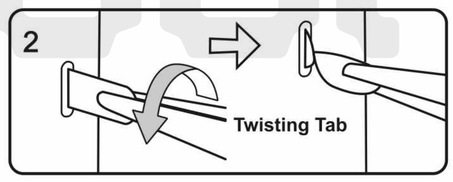


Please use the Needle nose pliers to fold the cutting parts into models.

d. Retaining the parts



● Insert the hole, bending tab with angle 90°



▲ Insert the hole, twisting tab with angle 90°

- Attention :

E Engraved / Color side

NE Non-engraved / Silver side

! Attention Point

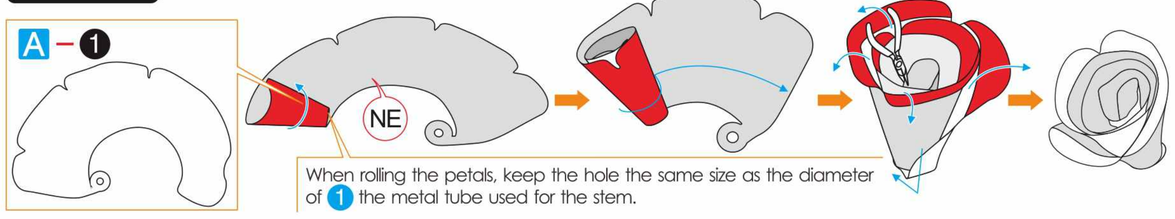
Keep the parts symmetrical

When cutting metal parts, please do not cut the "insert tab" as "nozzle position". Only cut the parts of the current step when cutting the parts. Do not cut all the parts at one time to avoid loss.

When encountering the parts of the folding line, please pay attention to the front and back of the metal sheet and the direction of the folding. According to the direction indicated in the instruction, cut lightly and fold slowly. It is best to fold it once. Do not fold it repeatedly to avoid damage to the parts.

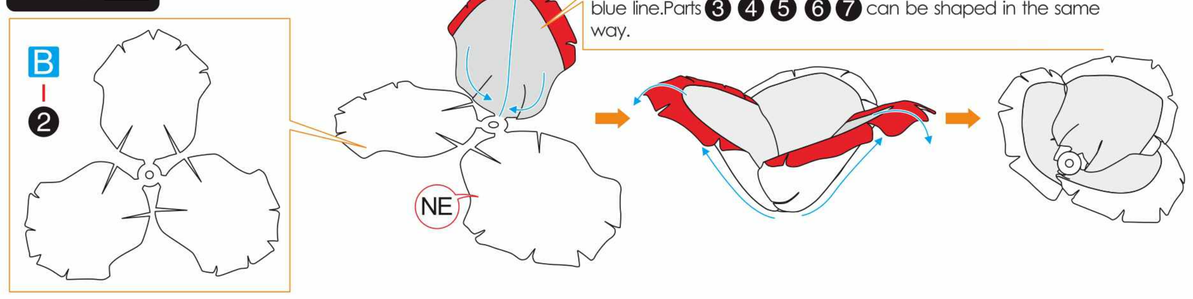
Assembly Guide

Step 1



When rolling the petals, keep the hole the same size as the diameter of 1 the metal tube used for the stem.

Step 2



The grey part of the petal in the picture needs to be shaped by hand to match the blue line.The red part can be shaped using needle nose pliers or hand, following the shape of the blue line.Parts 3 4 5 6 7 can be shaped in the same way.
